## September 2023

Bali – Indonesia, 3<sup>rd</sup> GALESS Conference, September 2023

Where do we start, talking about this exciting GALESS conference in Bali in September 2023? A life-time experience again for our young GALESS researchers. The conference was set up and guided by Mr. Anton Malem Barus and Mrs. Monika Raharti from CYS Indonesia in cooperation with SMAN 3 DENPASAR. Words do not express our thanks in a right way. We simply “bow” while taking off our hat .... Another GALESS conference carved in our minds forever. A new impulse for our research activities in the Energy Transition from students from Vietnam, Indonesia, China, Thailand, Spain, Brazil and the USA was combined with working visits to a solar farm, local Government, Udayana University, workshops and many experiences more. A comfortable stay at Werdhapura

Hosting-session GALESS Students:

Mr. K. Mudarta, Dep. Transportation and Mr. A. Malem Barus (middle) and Mrs. M. Raharti (right)

Mr. Francesc Rubio, GALESS Director

Village Center with nice local food made this week simply mind-blowing ! Thank you so much organizers, supporting staff and students!

## Melbourne, Australia, 4<sup>th</sup> GALESS Conference, October 2023

A brand new GALESS Conference, starting October 17, 2023 in Melbourne Australia is coming up. The GALESS research-concept regarding Energy Transition will be the focus of attention again, supported by local schools from Melbourne, part of the Boroondara Gifted Network, and foreign contributions from Singapore and Vienna.

The hosting concept is special: different schools in Melbourne will host this conference on different days. All coordinated by our AC member and spiritual leader Mrs. Michele Linossier.

Interested ? : The Abstracts of the research reports have already been published and are available in the Activity Listing on the GALESS Website (see picture below). The research reports will be published, also for anyone who’s interested, starting October 17 2023 on the same GALESS webpage.

Activity title	Owner	Start date	Finish date
TiltShift Challenge 2, Energy Transition 2023 Melbourne	Mrs. Michele Linossier	01-12-2022	01-02-2024
School	Learning Experience	Asset	Document
Mentone Girls Grammar School	<a href="#">Melbourne October 2023 TiltShift Challenge Energy Transition</a>		
Fintona Girls School	<a href="#">Melbourne October 2023 TiltShift Challenge Energy Transition</a>		
Camberwell Girls Grammar School	<a href="#">Melbourne October 2023 TiltShift Challenge Energy Transition</a>

## GALESS, the African way...

Would you like to know about young talent with an international ‘drive’? About an experience to take part in a GALESS conference ? About what leadership is all about as a young student ? About the ambition to represent a full continent ?

Simply be inspired by him: Fabris Mulindi. Just read more about him on our GALESS Website in “News”. He’ll be part of our GALESS Strategic Taskforce soon as a new “diamond” ambassador for the GALESS domain “Empty Pocket”. And talking about sustainability : we have a very warm feeling about GALESS initiatives being out there forever with Fabris onboard!

---

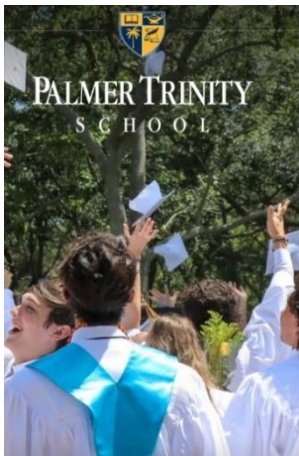

2024 announcements:

GALESS Thematic Approach: Life Sources

---

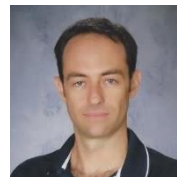

Miami – the USA, new conference in June 2024 organized by

## Palmer Trinity School

The GALESS team is honored to announce a new conference initiative in Miami organized in cooperation with Palmer Trinity School. Pre-registrations for our Florida conference after our information letter in April 2023 (we had so many... !) and a solid approach of our GALESS relation-network in Florida with an exciting new offer of Palmer Trinity School (PTS) as a hosting partner. This conference will make a dream come true for the selected 32 students ! Ocean Research is the focus in our Life Sources program and study-visits to Miami University, Key Largo and the Everglades are part of the program.

Dr. Leopoldo Llinás will be our guide in his local Aqua Lab at PTS.

*Dr. Leopoldo Llinás*

*Aqua Lab PTS*

Prof. Sandra Gilchrist from our GALESS AC team (see profile on our website) will formulate the research thesis in Information Pack 1. Publication date: End of September 2023.

## Varginha - Brazil, new conference in October 2024 organized by CEFET, **Centro Federal de Educação Tecnológica de Minas Gerais**

A long term relationship with one of the permanent members of our GALESS Jury Board, Prof. Cristina Roscoe Vianna, has resulted in a second new special conference initiative in Varginha Brazil. The information-invitation letter will be sent soon to all our GALESS relations with an

*Prof Cristina Roscoe Vianna*

invitation to take part in the Brazil conference in October 2024 (week 42).

The Life Sources program will be focused on “Natural Earth Resources” in this conference week. The thesis connected to research-reports will be published in January 2024. The program in Brazil includes a travel program, from Belo Horizonte to Varginha vice versa.

---

2025 announcements:

## GALESS Thematic Approach: Empty Pocket

---

Singapore 2025 , a new conference organized by Singapore School of Science & Technology.

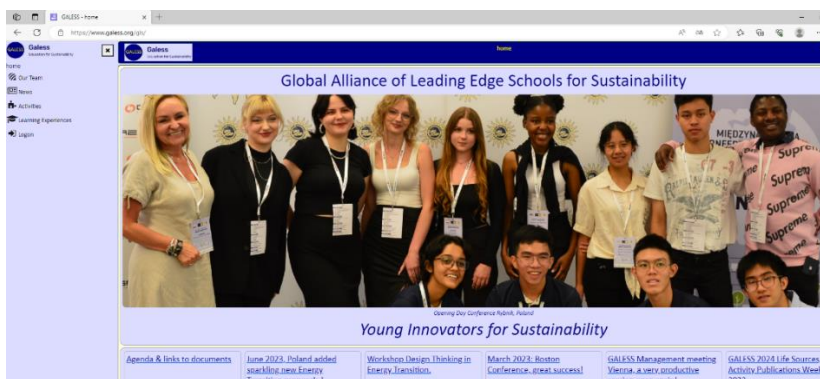

Johannesburg, South Africa 2025 , a new conference organized by the African Leadership Academy.

---

## GALESS new website – design launched August 17, 2023

A new design of the GALESS Website gives conference organizers more possibilities to host their conference, and facilitates certificate production under the GALESS licensed login procedure. Next to more new functions to organize a GALESS conference in a proper way, a new **GALESS profiled membership for schools** is under construction and will be launched January 2024. The website will support this launch as well.

---

---

## SAVE THE DATE!

### **GALESS Management-meeting, May 2<sup>nd</sup> -3<sup>rd</sup> 2024, Johannesburg, South Africa**

---

Sitges 2022, Vienna 2023. GALESS Management-meetings keep on being very productive each and every year. In 2024 our GALESS Managementmeeting for AC-members, Direction, Board and Strategic Task Force will be held in Johannesburg, SA. The African Leadership Academy will host us in May. For those who can't be present, the usual virtual connection will be available as well at that time. Please send an email to [info@galeess.org](mailto:info@galeess.org) if you can join us live in Johannesburg!

---

## **GALESS Book publication 2023 Energy Transition:**

### **Expected publishing date : the end of December 2023.**

GALESS will publish a book with the full collection of research reports about the Energy Transition by the end of December 2023. Reports from Boston, Poland, Bali and Melbourne are bundled and, as we announced in 2021 with the first edition of a book at that time, we'll offer this book to local authorities to bring our student's efforts & ideas to the attention of decision makers.

The book will be available at "cost-prize" based on pre-orders. An email about this offer will be sent end of December 2023 to all our GALESS relations.
